PROFESSIONAL SUMMARY

Versatile IT professional with a National Diploma in Information Technology and hands-on experience in both software development and IT support. Skilled in developing and maintaining web applications using C#, ASP.NET, and Angular, as well as diagnosing and resolving hardware, software, and network issues. Strong foundation in system administration, networking fundamentals, and automation, with a passion for building reliable systems and improving performance in real-world environments.

TECHNICAL SKILLS

Programming & Development

- C# (.NET Framework, ASP.NET)
- JavaScript / TypeScript
- C (system-level scripting & automation)
- SQL (queries, joins, basic procedures)
- Object-Oriented Programming (OOP)
- REST API development & integration

Web Technologies

- Angular
- HTML, CSS, JavaScript
- Responsive web design

Networking & Infrastructure

- TCP/IP, DNS, DHCP, Subnetting
- LAN/WAN concepts
- Network troubleshooting & diagnostics
- Basic network security (firewalls, access control)

Systems & Administration

- Windows OS administration
- System installation, configuration & maintenance
- Hardware & software troubleshooting
- Performance monitoring & optimization

DevOps & Deployment

- CI/CD pipelines (Azure DevOps)
- IIS web deployment & configuration
- Environment setup & release support

Databases

- Microsoft SQL Server, MongoDB
- Database design & normalization
- Data validation & reporting

Tools & Technologies

- Git (branching, merging, pull requests)
- GitHub / Azure Repos
- Wireshark
- Remote desktop tools
- Command-line tools

Scripting & Automation

- PowerShell / Python / C scripting
- Task automation & scheduling
- System monitoring & cleanup scripts

PROFESSIONAL EXPERIENCE

Graduate Trainee – Software Development

Shearwater Adventures, Victoria Falls

2025 – Present

- Developed and maintained web applications using C#, ASP.NET, and Angular
- Deployed applications to IIS and supported production environments
- Troubleshoot system, application, and performance issues in live systems
- Assisted in configuring CI/CD pipelines using Azure DevOps
- Supported API integrations and backend services
- Collaborated with teams to resolve technical and connectivity issues

IT Support

Three Choirs Distribution

- Diagnosed and resolved hardware, software, and network-related issues
- Configured and maintained computers and network devices
- Assisted users with LAN and internet connectivity issues
- Performed routine system maintenance to minimize downtime
- Supported daily IT operations and infrastructure

Information Technology Technician

Midlands State University(Zvishavane Campus) · Internship

Jan 2025 - Jul 2025

- Setting up computers
- Cabling Fixing
- Connectivity Issues Printer
- Troubleshooting
- Computer Repairs
- Configuring Access Points
- Replacing Faulty Equipment

PROJECTS

System Monitoring & Automation

- Developed scripts to monitor system performance and trigger alerts
- Built automated cleanup tools to optimize storage and efficiency

Web Application Deployment

- Deployed applications using IIS and configured production environments
- Resolved deployment issues and ensured system stability

Basic Network Troubleshooting Lab

- Configured LAN environments with routers and switches
 - Practiced IP addressing, subnetting, and diagnostics
 - Used command-line tools for troubleshooting
-

EDUCATION

National Diploma in Information Technology

Gweru Polytechnic College

Completed: December 2024

Relevant Coursework:

- Software Development
- Networking Fundamentals
- Cybersecurity
- System Administration
- Data Structures & Algorithms

A-Level

Fatima High School – Completed: November 2018

O-Level

Marist Brothers High School – Completed: November 2015

SOFT SKILLS

- Problem-Solving & Critical Thinking
 - Communication & User Support
 - Team Collaboration
 - Attention to Detail
 - Time Management
 - Adaptability & Continuous Learning
-
